

THE 'FAIT'

FIELD AIR INFLATION TOOL

NEW TOOL
DESIGNED TO FIT INSIDE
YOUR GLOVE BAG!

When working around energized circuits, your FAIT is in your hands!

Keep SAFE and use FAIT to examine your rubber gloves DAILY with ease!

This new product will make the daily visual inspection of your rubber insulating gloves simple and efficient. No more escaping air when you try to roll up your gloves for visual inspection!

How to use: Slide the end of the cuff of the glove into the jaws of the FAIT. Roll the glove over and around the FAIT to create a tight seal for better inflation and superior visual inspection of your rubber gloves.
