UPC's Tamper-Evident Label/Seals afford the benefits of warning labels plus provide an auxilliary seal on all types of applications. Like our Custom Warning Labels, we use advanced processes and materials to assure that your message remains readable, even in the most hostile environments. Unlike normal labels, however, any attempt to remove the Label/Seal results in "VOID" messages.

- Eliminate the "I didn't know" excuse for unauthorized entry.
- Reduce liability in case of injury resulting from unauthorized entry.
- Meets ANSI C12.7-1993, 6.13 Safety Alert markings requirement.
- Provides visible indication of entry attempt.
- Long "readable" life: 8-10 yrs or greater.
- Positive traceability provided with optional serial number or bar code.
- Applications include:
 - Electric: Meter sockets
Instrument transformer cabinets & enclosures
Test switch covers
 - Gas: Meters
 - Water: Meters
 - CATV: Pedestals
Amplifiers
- Security is strictly controlled through sale and delivery of Custom Label/Seals only to the specified purchaser.
- Quick turn-around of artwork & short lead-time on production orders.
